Other advices said that the forces of General Ramos and General Ernesto Garcia have effected a junction with the Carranza troops from Durango, under General Maycotte, and that the main body of the joint command is now south of San Pedro del Gallo, about thirty miles west of Torreon. General Ramos is in Escanion, preparing for a move which it is believed will result in Villa's capture.

Hilario Rodriguez reported from Torreon that he has sent messages to the various bandit leaders in Durango and Zacatecas asking them to confer with him on proposals for amnesty and is meeting with favorable responses.

Detailed reports of the engagement at Cerro Gordo several weeks ago, received today, said that 124 Villistas were killed in the engagement. The same report added that the Carrancistics, as well as the bandits, are suffering from a shortage of food. It was pointed out that the district in which the campaign is being waged offers no other food nor forage and that the borses, as well as the men, are under-

LONDON. July 28—Since the completion of the capture of Pozieres the news from the British front in France is mainly of artillery actions and testing encounters at various points on the German line. The comparative lull and hot, hazy weather, it is assumed '-ve given the Germans and concrtunity to bring up further troops and guns with a view to renewed attempts to recapture Poizeres, where, however, according to unofficial reports, the British troops have further consolidated their positions.

Tonight's official report shows that there has been hard fighting all day with some fluctuations of fortune, but that in the end the British improved their positions northeast of Pozieres and in the vicinity of Longueval and Delville wood.

Similarly, from the eastern front there is little fresh news. There is much comment in the European capitals on the effect the loss of the last great Turkish fortress in Armenia, from which province the Turks are said to be fleeing owing to exhaustion of their ammunition supplies, is likely to have in Constantinople and also as to the influence this defeat, conjoined with the success of the Russians toward Brody in opening the road to Lemberg, will have on Greece and Rumania.

The Associated Press correspondent at Athens learns that there is no lorger any likelihood of an attack on the entente allied forces - Schooling admits that the German technique is so high that Germany can still offer a strong resistance.

HUGHES CONFERS ON WESTERN CONDITIONS

BY DWIGHT B. HEARD

NEW YORK, July 27.—I had a conference by special appointment with Charles E. Hughes today regarding western conditions. While he talked freely and with absolute candor, he requested no specific publicity until after his statement next Monday, which I am sure will strongly appeal to all patriotic, liberal thinking people. He heartily expressed his appreciation of the progressive support he is receiving throughout the country, and laughingly said:

of the progressive support he is receiving throughout the country, and laughinely said:

"Why, great Scott, I think I can be classed as one of the original progressives for the work I started in New York."

He is most genial personally and would appreciate "Little James." He looks one right in the eye; impresses one with his absolute sincerity and complete freedom from boss or invisible government domination. His interest in the human welfare problems is keen and his patriotism intense. In fact he is a clear-thinking, vigorous, manly American whom it should be an honor to vigorously support.

Practical conservation involving the hest development of our vast natural resources, interests him greatly and I look for a period of great material development under his administration with the public's rights absolutely safeguarded.

ON SICK BED HATCH ASSUMES BLAME FOR COLLAPSE OF BANK

TAKING HARTMAN BACK [Sepublican A. P. Leased Wire] ALBUQUERQUE, N. M., July 27.— United States Marshal A. H. Hudspeth passed through Albuquerque tonight with Guy Hartman, the American scourt in custody by Edwin H. Hatch, vice president of the institution, and said to be one of its largest stockholders. The crash, he said, resulted from the over-certification of a \$24,000 deposit to ten times that amount—\$340,000. Hatch's statement, issued from his sick bed, followed the arrest of himself and Thomas S. Byrne, secretary-reasurer of the bank. The latter resionsly had admitted, so latter resionsly had admitted.

Hatch's statement, issued from his sick bed, followed the arrest of himself and Thomas S. Byrne, secretary-treasurer of the bank. The latter previously had admitted, according to the authorities, that he had a part in the alleged conspiracy, but asserted his act was not prompted by a desire for personal gain, but by the belief that he was serving the bank.

Hatch, on the night of May 18 last, confided in him, Byrne declared that his "ready money", was tied up because he had undertaken to carry certain paper which the bank held from former United States Senator James Smith, of New Jersey, at the time of the latter's failure about a year ago.
